

'Error,' says Michelson

SCHOOL PRICE REVISED

The proposed price of the new 63,560 square foot elementary school off Shawsheen Avenue was revised downwards, Monday evening, by the sum of \$170,000. Robert Michelson, a member of the Permanent Building Committee, and former Chairman, told a combined meeting of the PBC, the Finance Committee, and the School Committee that he had made an error, and included the cost of the site preparation, \$170,000, twice. The revised construction cost, as prepared by Michelson, was \$1,942,500.

Michelson prepared a set of figures during the early part of the two hour meeting, which figures were put on a blackboard in the High School room in which the three committees were meeting. Those figures showed:

Total construc. cost	\$1,614,000
Less Site Prep	170,000
Total Building Cost	1,444,000
Equipment	1000,000
Architect & Engin.	121,000
Supervision	15,000
Contingencies	92,500
Total	\$1,942,500

One of the reasons for the cost of the new school, according to Michelson, was because some of the class rooms are being made into expandable, with walls that cost \$10 a square foot. The walls, according to Michelson, would have black boards, presumably permanent.

Michelson said that an ordinary concrete block wall of four inches would cost about 75¢ a square foot.

Michelson and Joseph Courtney, of the Finance Committee, found themselves in agreement during one discussion of the evening--a discussion of the State School Building Assistance Bureau. Michelson told the group that that Bureau passes on practically all proposed school buildings in the Commonwealth, 'has no standards, and refuses to set them.'

Courtney chimed in with 'Under the laws they are required to do so, but they refuse to, consistently'

Two others who agreed with this statement, but not so volubly, were

the Superintendent of Schools, Harold Shea, and Selectman Paul Niles.

The Meeting

Chairman John Callan of the PBC conducted the meeting, which was in effect a meeting of that board. After the meeting with the other boards was over, about 10 pm, the PBC retired to their regular meeting room in the High School.

Among those present, in addition to the architect, John Guarino, was H J DeLamater, a professional estimator for contractors and architects of 35 Newbury St., Boston.

Mr. DeLamater engaged in a discussion to prove that the Woburn Street School would cost as much as the proposed Shawsheen Avenue School, under the cost figures of today and the next couple of years. Before DeLamater spoke on this Shea had discussed the facilities of the two schools, pointing out that the Shawsheen School will have about 10,000 square feet in extra facilities, with extra kitchens, toilets, guidance rooms, etc.

Costs for the construction of the Woburn Street School, according to Guarino, were \$518,044 in 1964, and \$545,000 in the construction now going on, or a total of \$1,063,044.

DeLamater, in projecting the costs to 1969, increased the costs

THE YOUTH HOCKEY PROGRAM IN FULL SWING: Volunteer workers, last weekend, at work rebuilding the Skating Rink at the Wilmington Skating Club, on Chestnut Street, for the use of the boys in the Wilmington Youth Hockey Program, now in its fourth year.

The work started eight weeks ago, and the rink will be 180 feet long, and 85 feet wide. There will be boarded sides, and the rink is to be lit by floodlights. Taking part in the work program are Bill and John Irwin, Dave Trickett, James Bransfield, Warren Mickle, Warren Everett, Lou Dindo, Dave Webster, James Downes, Jay Tighe, Tommy McMahon and Carl Backman. The lumber that they have purchased costs \$400, and other materials have already been paid for.

The youngsters will be out this weekend, selling toothbrushes, to help pay for that lumber.

Wanted: Massachusetts and Maine Flags

Sergeant First Class Edward A. Heffron, US Army, is the Platoon

Sergeant of the 2nd Platoon, B Company, 86th Engineer Battalion, serving in Vietnam. He is the husband of Joan Maude Blaisdell Heffron, of Swain Road.

The 86th is a Combat Battalion, and Sgt. Heffron wants to have a flag or two for its headquarters.

One flag he wants is that of the Commonwealth of Massachusetts, the old Pine Tree and all, and the

other is that of the State of Maine, from whence he originally came. They would be very nice, he thinks, in the barracks, along with the Christmas Tree that his wife has already sent over.

The request is simple, but the serving of it is not so easy. Where does one get a flag of the State of Maine, without going to Maine? Or, for that matter, where does one get a flag of the Grand Old Bay State, suitable for headquarters of an Army Battalion in Vietnam?

Sgt. Heffron has ample reason for asking for these flags. He just hopes someone will donate them.

Boys Injured in Freak Accident

Paul Dinnen, of Dorothy Avenue is a patient in the Choate Memorial Hospital in Woburn, and Daniel Jackson of Frederick Drive is at home, as the result of a 'freak' accident, in a school bus Friday.

A tire iron, or a piece of heavy spring leaf from a truck came in through the window of the bus and struck both boys. It is described as being about a foot long, two inches wide, and about a quarter of an inch thick.

The Dinnen boy was seated about two seats back from the front door, according to reports, and the Jackson boy two seats back of Dinnen.

The Dinnen boy was struck in the shoulder, and the Jackson boy in the back of his neck. The tire iron ended up on the Jackson boy's lap. Both were taken to the office of Dr. Ralph Lepore, where the Jackson boy had his injury sewed up, and the Dinnen boy was sent to the Choate Memorial.

Police cannot account for the presence of the tire iron, to their satisfaction. The school bus was reported to have been back of a yellow truck, when the iron came through the window. Some reports say it was a state or other Highway Maintenance truck, and others say it belonged to the Coca Cola company. Coca Cola authorities are said to have reported that they had no trucks in the area at the time of the accident.

Blower Accident

Yesterday's snow storm was responsible for the first snow blower accident of the year, in Wilmington.

Stephen Coursey, 14 year old son of Mr and Mrs C Homer Coursey of 17 Frederick Drive had his foot caught in a snow-blower, at about 9:30 pm last night. Both the Police and Fire Departments responded to the emergency call.

He was recently the subject of a story in one of the Army newspapers, in Vietnam. Sergeant Heffron had the pleasure, if that is the word, of capturing a Viet Cong without firing a single shot.

He was in charge of Base Camp Security, on October 8th. While checking out the jungle areas around the camp he spotted a small group of Vietnamese, about 100 yards away.

He took a squad of infantry, and rounded up the Vietnamese, but one of them ran away as the US soldiers approached.

He ran into the jungle, with Heffron after him, and Heffron was soon able to bring his man down.

Heffron's prisoner turned out to be the only one of the Vietnamese without any proper identification. He was turned over to Army Intelligence, where he admitted being a Viet Cong soldier, and was reported to have provided the US Army with a vast amount of intelligence, which was used in Operation Akron II.

THE COMING TOWN MEETING

How many voters will attend the Town Meeting next Monday evening? 750 chairs have been ordered for the High School gym, in the belief that this will be sufficient. Sometimes there have been only 400 to 500 at an annual Town Meeting, but there seems to have been enough steam generated about a half a dozen articles to exceed the 750 mark.

Harold Shea, Superintendent of Schools hopes perhaps that he will not be the focal point of the Town Meeting, - but he might well be. He thinks that the Library is the most important subject to be discussed and hopes to see it voted. In this he is joined by about practically every person who has expressed himself on the subject.

The first article is to again purchase the land of old St. Thomas. This will be about the fourth time the town does it, but this time is to be by 'eminent domain' which certainly will clear up any legal questions as far as ownership is concerned.

Article 2, as is well known, is the new Library article. This time the library is designed by Library Architects. The bond that is to be asked is about \$480,000. There should be no trouble getting this accepted at the Town Meeting. The Finance Committee has recommended to the voters that both articles be approved.

Article 3 might possibly see fireworks.

Harold Shea is an able educator and administrator, and the Town Crier thinks very highly of the man who is Wilmington's Superintendent of Schools. But Harold will have his hands full this time.

Part of the difficulty stems from the new law which calls for kindergartens in all towns and cities by 1970. It is a state law, and Mr Shea is beholden to uphold it, which he is doing to the best of his ability. But there are people in this state who do not feel that the expense is warranted. Many recall that 30 years ago the public educators said that a child should begin his schooling at the age of 5 or 5 1/2, and then in subsequent years this was said to be too young, and the age limit was changed to six, and sometimes seven.

There has been a turn-around in the thinking, in that the kindergartens are now going to start children on the road towards their education even before they are five. The public has not really been tested on its acceptance of this concept. In Dracut, Tuesday, according to the Boston Globe, the voters turned down kindergartens. This will be Wilmington's first vote in which kindergartens might become a crucial question.

In addition to the question of kindergartens, for which part of the new Shawsheen Avenue plans are made, Mr Shea is seeking to consolidate certain phases of the town's educational facilities into one building - the idea being to provide many children under one roof for teachers who work in remedial subjects, etc. With smaller schools these teachers can and have been traveling from school to school. But the cost of the 28 room school is almost abhorrent to some people. Perhaps these people can be educated in costs of new school construction, and then again, perhaps some of the state officials who encourage the ever increasing costs have to be educated in a different way.

The Finance Committee did not approve Article 4, because of lack of information as to costs. There was another meeting Monday night, in which costs and other subjects were quite fully discussed, and which is reported in this issue of the Town Crier.

Incidentally the Town Crier owes a vote of thanks to Bob Michelson of the Permanent Building Committee. Mr Michelson charged quite publicly Monday evening that the Town Crier did not get its facts straight. The inference was that the Town Crier had wrong cost figures, and in this he was right, but not in the manner he was suggesting.

This column was depending on its memory when it said that the Round Schools cost about \$500,000 each and pointed out that the construction of three such schools could provide 36 classrooms at a cost of about \$1,800,000, allowing \$300,000 for increased costs. There would be, the Town Crier said, about \$300,000 left over.

But the cost of those schools was not \$500,000. One of them cost a little under \$400,000, and the other a little over \$400,000. That adds another \$300,000 to the figure which the Town Crier was using in the 'savings' column, and brings the hypothetical savings up to possibly \$600,000. Of course the cost of construction has gone up, but perhaps there might be a Half a Million Dollars to save, there.

The FinCom approved of Article 4, which asks for another \$25,000 for construction costs of the Woburn Street School.

On the other hand it did not approve, nor did the Planning Board, of Article 5, which seeks to purchase the Davis Farm, off Glen Road, for future school sites (The rumor is a future new High School). The farm is 35 acres in area, and part of it is directly in back of the DeMoulas Shopping Center on Main Street. Selectmen and others who have traversed the area say there is a lot of rock, and water, which may or may not be an important factor.

The Planning Board says that use of this area for schools will mean increased costs in road construction, as happened at the West Intermediate School. Glen Road, for the Planning Board, is too narrow and too curved, and other roads will have to be built too, it says.

Pre-Tewksbury

Smoker

Friday Night

The annual Pre-Tewksbury Smoker is to be held in the large High School cafeteria Friday night starting at 7:30 pm, with the High School Boosters showing films with the highlights of the football season.

Players, coaches and cheer leaders will be present, and will present an opportunity to the public to meet the boys and girls socially.

Wilmington's High School team this year has at least clinched the title, on a tie basis, for the Merrimack Valley Conference Championship. A win on Thanksgiving Day will give the Wildcats sole possession of the Championship.

The plans for the Thanksgiving Night Dance are now complete. The band will be the popular Warlocks, and tickets, \$1.25, may be purchased from either the football players or the cheerleaders. They will be distributed at the Friday night Smoker.

In line with expanding the Booster Awards Program, a new Varsity Sweater program policy has been adopted.

All athletes, boys and girls, who earn a Varsity Letter two years in succession will be given a Varsity Sweater at the completion of their second season.

All athletes who have been on a Varsity Team in their Junior and Senior years will be given a sweater.

Cheer leaders who earn a Varsity Letter for two consecutive years in the same sport will be given a Varsity Sweater.

Any boy who earns a Varsity Letter as a Freshman or Sophomore will be given a special award of a Pull-over Sweater.

Special cases may be submitted by the coaches to the Executive Board of the Boosters Association for consideration.

The next regular meeting of the Boosters will be Monday, Nov. 27th at 8 pm in the small High School Cafeteria.

CARD OF THANKS

We wish to express our deep appreciation to all for the many kindnesses and sympathy extended during our recent bereavement.

Letter

November 13, 1967

Editor, Town Crier
364 Middlesex Avenue
Wilmington, Mass.

Dear Sir:

In the issue of November 9, there was an article by MNW entitled, 'An Alternative' and it concerned the new Regional Vocational Technical High School. I would like to reply to the writer relative to some of the matters mentioned in this article. It was recommended considering a comprehensive high school. Actually, how successful is a comprehensive high school? I think the writer has a weakness which is common to some people who feel they must comment on a particular matter and that is the lack of complete knowledge concerning a particular matter about which they are concerned. If the writer mentioned having visited a comprehensive high school or a number of such schools and evaluated the vocational courses given, this would be significant but to generally and vaguely discuss the merits of a comprehensive high school without any first hand knowledge raises the question as to the validity of such an argument.

At a public hearing on the new Regional Vocational Technical High School held at the Wilmington High School on November 6, this matter of a comprehensive high school was brought up, and Mr. Wallace Haigh, Secretary-Treasurer of the Regional School Committee, stated that only a good-sized community could have a comprehensive high school with a satisfactory vocational/technical training area. I have had occasion to visit comprehensive high schools and found that the greatest problem was the lack of variety of offerings to the students. In many cases, the curriculum offered only training in perhaps 3 or 4 areas. With the new Regional Vocational High School, the students of Wilmington will be offered a total of 12 or more different courses from which to choose.

Another point brought out was

that the writer felt that students going to this type of a school would have to make a premature decision regarding goals for adult life. In answer to this, the writer perhaps is not aware that we plan an exploratory system wherein the student has an opportunity to try his hand in various areas in which he feels he may be interested. If it is found that the student is not ready or shows no ability in any of the areas, then it would be recommended that the student continue his or her education at Wilmington High School.

The writer is idealistic in anticipating that those in vocational education work together with those in the college course. The biggest complaint in a comprehensive high school is that the college preparatory students look down on those in the vocational education courses with the result that you have a class distinction situation which does not exist in a Regional Vocational Technical School.

The writer also mentions that there is 'only a small percent difference in Government subsidy in favor of the separate school'. Here again, the writer is not very knowledgeable concerning the Federal Smith Hughes, George Barden or the Vocational Act of 1963. The Federal government will not only pay a percentage of the construction cost of the school, but will also pay 50% of the salaries of the administrative staff, shop and related teachers for the first four years of the school's operation. This group would amount to approximately 75% of the teaching staff.

Lastly, the writer mentions, 'instead of becoming deeply involved in a Regional Technical School', may I point out that two years ago the people in Wilmington voted 82% in favor of the Regional Vocational/Technical High School. On the basis of this approval and that given by the residents of the other four towns of the region, the School Committee has not only purchased the land but has engaged the services of the architect with the result that they are now going into the working drawings of this school. Isn't this rather late for the writer to recommend looking into an alternate plan?

Very truly yours,
Benjamin Wolk
Supt-Director

Town Park: Lighted area from 5 to 9:30 pm. Ski-tow in operation evenings. Ski-tow in operation Saturday, and Sunday pm.

Silver Lake Beach: General Skating.

Births

ELLIOTT, Kim, a daughter to Mr and Mrs Kenneth Elliott of 52 Brand Avenue on November 3, 1967 at the Choate Hospital. Paternal Grandmother is Mrs Elliott of Norfolk Avenue.

BRAZEE, Baby girl, to Mr and Mrs George Brazee, 2 SWalker Street, at the Winchester Hospital on November 14.

Maternal Grandparents are Mr and Mrs Robert Niles of Walker Street. Paternal Grandmother is Louise Brazee of Tewksbury.

Youth Hockey

The Wilmington Bantams flattened a hapless Tewksbury team Sunday evening, at the Billerica Forum, by a 12 to 0 score.

Wilmington jumped to a quick 4-0 lead, by the end of the first period. Jim Irwin scored the first three goals with assists going to Ray Bicknell, Peter Tighe, Dave Irwin and John Conlin. Tom Szadis closed out the first period, scoring with an assist by Jeff Dindo. Fine defensive play by Dave Irwin, John Conlin, Mark Rouche and Steve Neal enabled Jim Bransfield and Dave Carpenter to record their first shutout.

Goals in the second and third periods came fast and furious. The

offensive punch was supplied by Peter Tighe, with 3 goals and 4 assists; Jim Irwin with 5 goals and 1 assist, Tom Szadis with 2 goals, Ray Bicknell with 1 goal and 1 assist, and John Trickett with 1 goal.

The next game will be on Sunday at 5 pm at the Billerica Forum, (Rte 129). Spectators are invited, at no cost.

The Wilmington Youth Hockey Clinic is to be held at the Frost Arena in Lawrence, Friday from 6:15 to 7:15 pm. Take Rte 93 to Rte 495 to Rte 28, North Exit. Arena is 200 yards from exit, over railroad bridge. All boys 14 and under are welcome. Cost \$1.00 per session.

Selectmen's Meeting

There was quite a stir at the close of the Selectmen's Meeting on Monday evening, when Marion Boylen and James Shine, the Vice President of the Silver Lake Betterment Association proposed that the Board accept the Silver Lake Betterment Association Hall.

They only wished to give it to the Town with the stipulation that it be used for a fire station. Mr Miceli explained that there was not a full Board present, since Mr Niles was with the Town Manager at the PBC Meeting and Mr Black was ill. He promised them that he would bring it to the Board next week. He asked that they ascertain that they were able to give the hall away. It was left that they would notify the Board when ready, and Mrs Drew warned them that there couldn't be a fire station right off--that the Fire Underwriters had designated the next station to go in North Wilmington.

Rep Fred Cain appeared and said that he had a letter from the Chairman this noon, giving him until tonight to get the information. He had a Federal Stamp Guide Book which he loaned to the Board.

Cain said that at the income level suggested there, there would be three to one families in Wilmington to take advantage of this. He then went into the mechanics of the administration and said that if the Board decided to do this, let him know, and he'd take care of the connections.

Cain also stated that in 1965 there had been Federal Highway Aid on 129 to Main St in the amount of \$200,000, but that it had been killed by the Townspeople. The money was no longer available. He was sending a map to the Town Manager of work done by the County Resurfacing of Rt 38 from the Tewksbury line to Church St was done.

He had investigated new bridges, saying that the state would completely take care of Route 62 and that they were working on a relocation of the road to relieve traffic from the plants on 62 in Burlington and Bedford. They are also designing a new bridge for Shawshen Avenue, but it would necessitate a relocation with a dual highway and land taking, because of the new requirement of 22 feet above the railroad. The location was discussed and surmised.

For Jury Duty, Douglas M. Hogg of Columbia St was selected for Cambridge Court on Dec 4 and Helen G Allen of 40 High St was drawn for Middlesex Ct Civil Session at Lowell.

Benevento Gravel Pit

Town Engineer Arthur Harding reported on his meeting with Atty Lucas, associate of Atty Nigro, who represents John Benevento.

An agreement has been made that the work would continue in the pit within the bounds of the Plan of November 1957 and that repairs and corrections to the area would be accomplished as soon as possible. Harding had called Lucas on Friday and reminded him of the confirmatory letter, which Harding read at the meeting, and also had commented that Benevento was continuing operations in the northern section. Within a half an hour he said work had stopped, and the equipment was moved out.

Boylen questioned the establishing of boundaries for the new permit next month. Harding said that there was a possibility of his making some assumptions but that the grades on the original plan had been established from a bridge crossing Martins Brook. However some of the area was not too different now, so he was certain

he could establish boundaries. Miceli and Boylen both agreed that this should be done so that the boundary limitations could be re cited in the new license. Miceli complimented Harding on his work, stating that this was the most that had been accomplished with Benevento in seven or eight years and congratulated him.

A move was made to acquire the Grange property for \$2500 by eminent domain, at the advice of the Town Counsel.

Ralph DeLisle accepted the land adjacent to his from the Town for \$1800 with the restrictions in tact.

Hatch Act

The Board received a letter from the Conservation Committee stating their disapproval of the filling of the land off Wildwood St by the Sandpek Realty Trust, on which a Hatch Act Hearing was held a few weeks ago and at that time the Conservation Committee had voted for it. Sandpek and Hess Oil both have requests for Hatch Act Hearings for Friday night. Sandpek claimed it was not notified by Registered Mail, which made the previous hearing illegal and Hess Oil wishes to fill the land at the Main St Location between the Texaco Station and the Ford site.

Hearing dates for liquor licenses were set for Nov 27.

A letter from the Dracut Board of Selectmen stated that they would like Wilmington's cooperation in filing for a bill to the Legislature in January asking that the

Willis-Harris Bill be amended so as to not make kindergartens mandatory and to delete the 25 maximum student classroom. The Board concurred.

Memo from the Police Chief said that Ford had cut down on the lights since September. However, the Town had changed the lights on Main St. Miceli commented that it was interesting that the Town had changed lights without the Board's knowledge and he didn't understand why we had gone to that expense when DeMoulas had volunteered to increase lights when Ford cut down. This was referred to the TM for investigation.

Miceli had a communication from the State DPW stating that posting of school zones were on a program eligible for reimbursement and that the State would participate in the cost. Suggested a map so that the Board could judge where the town stands on this. Referred to the TM.

Mr Peters appeared and was questioned on the Federal grants coming into the Town Treasury. All discussion was held on the mechanics of the system. He assured the Board that the town was in good shape, although the welfare costs had gone from \$5600 to \$29000 per month. He explained that through transfers from other accounts, etc., they would make it this year.

Residents of Elwood Road appeared requesting that something be done about the water at the base of their street. Through Miceli's guidance, it was decided that they would put in gravel at their own expense, but the Town would spread it and participate in the cost since the Town owns a lot on that street. However, at the suggestion of Danny Gillis, who was present, it was decided that the investigation would be made into betterments as this would be a permanent solution for the abutters. Mr. Miceli inquired of them if there was someone willing to volunteer an easement for the drainage, but this inquiry was politely ignored. The spokesman for the group, John Forestier, sug-

gested that the prices be compared. They will investigate and return on Dec 1 at 8 p.m.

Bob Jennings of Moore St the new Chairman of the Voting Machine Study Committee appeared to say that Larry Allebrandi had been elected as Secretary and they will be having their meetings at the Town Hall at 7:30 every Friday, and the meetings will be open. They invite all proponents or opponents for it to attend. The Town Clerk will be invited as the first guest for Friday night.

Mrs. Pedersen appeared and presented colored maps of the Wilmington Development area to the Board and presented them with copies of her write up on her study of the project.

Miceli reported on the change of authority in the MBTA. The Board of Directors will be concerned with only broad policies in the operation and the Manager has been voted all powers necessary to carry on the business and the policies.

**TEMPLE SHALOM OFFICERS
TO BE INSTALLED DEC. 10**

Julius Gordon was elected president of Temple Shalom, last week at the annual meeting. Other officers are Harry Solow, Vice President, and Martin Valondick, Recording Secretary.

The Installation will be on Dec. 10, at 7 pm, in the Temple. The installing officer will be Simon Cutter, and a catered supper is to be served. Friends are invited.

CONGREGATIONAL CHURCH NEWS

Sunday, Nov 19, 11 a.m. Sunday Morning Worship. Church School: 9:30 a.m. Grades 3 through 10; at 11:00 a.m. Kinderkirch through 2. 5:00 p.m. Junior Pilgrim Fellowship; 7:00 p.m. Senior Pilgrim Fellowship.

Thursday, Nov 16 - Girl Scout Troop 354; 6:30 p.m. High School Class; 7:30 p.m. Girl Scout Investiture Service.

Friday, Nov 17 - 7:00 p.m. Boy Scout Troop 56.

Saturday, Nov 18 - 6:30 p.m. Couples Club covered dish supper. Program: 'My One Year in Warsaw, Poland' with Mr John Gowrys 6:30 p.m. Explorers Post 56 Shooting.

Monday, Nov 20 - 6:30 p.m. Webelos.

Wednesday, Nov 22 - 8:00 p.m. Thanksgiving Eve Service at St Thomas' Church. Members of all faiths are invited to attend.

FIRST CHURCH OF CHRIST SCIENTIST IN READING

First Church of Christ Scientist in Reading will hold a Thanksgiving Service, open to the community, in the church edifice at Lowell and Sanborn Streets, on Nov 23rd at 10:30 am. Friends, neighbors, and the public are especially invited.

This is a traditional service in Christian Science Churches throughout most of the world. Branch churches in South America, Europe, Asia, and the Near East will observe the American Thanksgiving Day, November 23.

A specially prepared Thanksgiving lesson will be read at all of these services. It will include passages from the Bible and the denominational textbook, 'Science and Health with Key to the Scriptures,' by Mary Baker Eddy. At the close of the lesson, the meeting will be opened for expressions of thanksgiving and gratitude from the congregation, for divine healing, comfort and guidance.

Keynote for the service will be a Golden Text from Psalms: 'O Lord, open thou my lips; and my mouth shall shew forth thy praise'

Related readings from the Christian Science textbook will include this passage: 'Are we really grateful for the good already received? Then we shall avail our selves of the blessings we have, and thus be fitted to receive more. Gratitude is much more than a verbal expression of thanks. Action expresses more gratitude than the speech' (Science and Health, p.3)

The congregation will join in hymns, accompanied by Mrs Marjorie Henry, organist. The church soloist, Mr. William Rice, will sing 'Thanksgiving' by G'Connor Morris. Mr. Frank G Hardy, First Reader, and Mrs Theodora Wisentauer, Second Reader, will conduct the service.

In accordance with long-standing practice, no collection will be taken at this special service.

Planning Board

There were two hours and five minutes of long and protracted discussion, Tuesday evening, by the Planning Board, on the problem of proper zoning definitions for a Motel. It started at 10 pm and did not end until 12:05 am, and even then would have kept going for another hour or two, except that the proponent of the most recent proposal (at 12:05 am) was told that the Moderator would never entertain her thoughts in the Town Meeting of Nov. 20th.

Mrs. Madelyn McKie had submitted the amending paragraphs for Section III-3 of the Zoning By-Laws, intended to properly amend that law in such a manner as to protect the town and its residents.

The outstanding feature, in one sense at least, was that Mrs. McKie was looking for a lot of 'green space', - grass, plants, etc. She wanted one hundred feet of green space on each side of any motel and in back, and this, coupled with thoughts by others that there should be 100 feet in front provided plenty of room for arguments.

Atty. Roland Wood, who represents a firm which wishes to build a Motel diagonally across from Lucci's Market, took part in the discussions, as did Steve Bartlett, assistant to Harvard Professor Charles W. Elliot, Wilmington Planning Board advisor.

The amendments, as they were finally hammered out, provide, briefly, that motels shall be on lots of land of at least 120,000 square feet, and with 300 feet frontage on an accepted street. There shall be a 100 foot setback on streets, with side yard and back yard distances of 50 feet, except that no motel can be built within 150 feet of any existing dwelling. The living floor area shall not be less than 20,000 square feet, and there shall be not less than 50 sleeping units, and a restaurant attached with a seating capacity of not less than 100 persons.

In a communication to the Planning Board Prof. Elliot said that an extension of the General Business Area on Lowell Street, now within 200 feet of Woburn Street, was not 'illogical', but there was a question of consistency in handling similar situations. In this he was making a reference to the proposed rezoning of land between Middlesex Avenue and Concord Street, a proposal that was turned down by the Planning Board last Saturday in a special meeting.

Elliot said that it was hard to believe that there would ever be any substantial residential development which would occupy the north corners of Woburn Street.

After the arguments had finally been concluded, at 12:05 am., Mrs. McKie wanted to propose another change in the zoning by-law, which would allow motels to use 100 feet of residential land, on appeal, in a given lot. She was dissuaded from pursuing the argument when it was pointed out to the lady that this would be construed as 'relaxing' and not 'tightening' the zoning by-law, and that the Moderator would not entertain such a motion in the Town Meeting.

Steve Bartlett, in the beginning at least, found himself in disagreement with the professor who employs him. He did not believe that the rezoning should take place, but he did actively assist in the framing of the words which eventually were adopted in the Planning Board's version for the rewording of the Zoning By-Law.

The final vote in approval of the suggested rezoning for Lowell and Woburn Streets was three to one, with Mrs. McKie dissenting.

Other Business

There was a lot of minor business, signing of plans, etc., which took up a good part of the evening, even after 12:05 am., and there were several more important items.

Sandy McFarland, of S. McFarland & Sons, Inc. was at the meeting to show new drainage and engineering plans for the third section of Alderwood Estates. The

plans included changes in elevation, and a three foot culvert under West Street, to replace the present 18 inch culvert.

The Planning Board set a date of Dec. 5th for a public hearing on the revision of the Section III plans. Only Section III would be discussed, Chairman Danny Gillis told McFarland.

The Jackson Brothers won an approval of their plans for Allen Park, off Parker Street and Lowell Street. Approval was given when they submitted a plan for surfacing of what is known as Temple Street, off Lowell Street, and had included this as a part of their plans for Allen Park. The street is owned by the firm. It will probably be called Jackson Road, on the suggestion of Chairman Gillis, but Fred Jackson countered with a joking proposal that it be known as 'Gillis Gulch'. As proposed the street will have a paved surface 30 feet wide. The width is curtailed by the narrowness of the present right of way.

Approval was given, subject to approval by the Board of Health and to certain construction details by the Town Engineer. The Jackson Brothers plan to build 42 homes in the new development, and informed the Planning Board that every home has already been sold. Prices will be in the vicinity of \$25,000.

The Town Engineer exhibited a new aerial photograph of the town, taken in 1966, which has been purchased at a price of \$85. The scale is One Inch equals 500 Feet, which makes the photograph quite large in size.

He was also authorized to order a new set of aerial photographs, to bring his files up to date.

3A CHURCH ST., WILMINGTON, MASS 657-7521**Nosey Nancy**

Send your announcements to Nancy, Box 208, Wilmington, or call 657-7141, or after five, 658-4865. If I'm not there, I'll call you.

It looks like this is the weekend to really do the circuit with whists and fairs.

A hot luncheon is being served on Thursday noon, November 16 at St Dorothy's Church Hall by the Ladies Sodality. Mrs Rosella Dean, the chairlady, has a large committee serving. The usual game play will take place after the luncheon with 25 prizes; among them, are two turkeys. The proceeds will go toward the Christmas gifts for the shutin and hospital. The public is welcome. Go down folks. This is a great take in. All of those ladies can cook.

The VFW Turkey Whist will be held on Saturday, Nov 18th at the VFW Hall. The admission will be \$1.00. Hear that after the Parade on Veterans Day, the VFW dedicated a flag to Mrs. Madeline Higgenbotham at her home on Adams Street for her all-time volunteer work with them. We hear that she was absolutely thrilled. At night they all went in to visit the Chelsea Naval Hospital to visit with the Vietnam Veterans with the Tewksbury VFW. They served soda, cakes, and cookies, and our own Higgle donated three afghans to them. (Now I know what she has in her shopping bag on the way to Boston. She's knitting or crocheting those afghans. That's about the only time she could possibly have to do that sort of thing.)

Pat Barden called to say that the Acacia Chapter of the Eastern Star will be holding their Turkey Whist on Friday, Nov 17, at 8 pm. The donation is 99¢ per person and this will be held at the Masonic Hall on Church Street. One and all are invited to attend!

Don't forget the Fall Fair for the Wilmington Methodist Church on Saturday, Nov 18, at the Church from 10 to 8 being finished off with the Roast Beef Supper by reservation with Fran Gamlin on Reading Avenue. The Abigail Circle will have a Food Table and would like to have you donate. If you are in need of pickup service please phone Judy Conant at 658-9531 or Helen Carver at 658-4969 by 8 p.m. on Friday Night. Let's do as well for this one as you did for the Congo Fair. This promises to be as good.

On Friday and Saturday, the 17th and 18th, there'll be a Rummage Sale at the Oddfellows Hall held by the Women's Fellowship. This Hall is right across from Avco and will be from 9 to 4 pm. Mrs Eaton will be at the Hall on Thursday afternoon to receive your donations!

Nancy Sullivan of Thurston Ave has made a visit to the Wrentham State School for Retarded Children and knows that they need some help for Christmas, since a lot of those children are either orphans or have parents that pay no attention to them. Being a mother to a retarded child, Nancy appreciates how they feel about things. She has taken it upon herself to collect one dollar items for these youngsters to help them for Christmas. They would like plastic toys, jewelry, and things that small children would like, but nothing made of metal to hurt themselves on. If any of the Service Organizations wish to donate to the cause, a record player or radio would be appreciated, or a viewmaster! Please leave your gifts at the Wilmington Center Pharmacy or across the street at the Depot. If you have them in by Dec 10, then Nancy will have time to wrap them. Also, if you would like, put your name on the toys, and she will see that it gets onto a scroll, which she is making to be displayed at the School in the lobby. (Here's a chance folks to do something small, but worthwhile to make some youngster happier at this Christmastime!)

The Atkins family of Fairmeadow Road had their Thanksgiving last week. Don was home and had to leave for the Marines on Nov 6. So the turkey came out early. Good luck, Don! We'll see that you get his address as soon as we know it.

By the way, speaking of addresses the Clan made out the Christmas Cards for the boys in the Service this weekend. It was a weekend proposition too, almost! However we all had lots of fun, and really feel that it was a worthwhile project accomplished!

FOUND - one watch in front of the Wilmington Post Office last Friday. Owner may have it by describing it to Mrs. M. Cunningham of 14 Beacon St, the finder.

Hear that the Lions want equal time with the Kiwanians. Its done, fellas, if you'll get the news to me on Monday. That's what it takes. Let's start roaring, Lions!

Speaking of Kiwanians--Larry Cushing, the Director of Recreation and Fred Bellissimo, the Head Coach at the high school, Ken Palm assistant Coach, and Henry Devlin and James Moore, Wilmington High School Students.

Walter Szumowski chaired the meeting in the absence of President Hayward. Walter introduced Art Spear who presented the program for the evening. Art introduced Larry who gave a rundown on Fred and Ken, giving their high school and college backgrounds. Fred then spoke on what

he considered a typical week in the life of a team. And from this we can see why our football team has been so successful. The pictures of the game movies of Chelmsford - Wilmington Game were shown and analyzed by the coach- pointing out the key plays. Art presented the 'best back' award to Henry Devlin and the 'best lineman' award to Jim Moore.

The speaker this week is Mr Roland Polhem. His topic is 'Space Photography' and we will see a replica of the camera used by our astronauts while in space and some of the photos taken during some of the recent flights.

Eric P. Matson and Millard C Pipes of Wilmington were honored by the Farm Bureau Federation at their convention at Rolling Green this week. They were presented with certificates in recognition of their twenty-five year continuous membership.

We hear that Paul Henke of North Wilmington is the proud owner of a Camaro that he won on one of those talk programs while he was ill and home from school on Monday. We call that a profitable illness and wonder if Mr Garrett and Mr McMahon are going to share with him!

The Waterhouse boys are now both in the Air Force. They are the sons of Mr and Mrs William Waterhouse of 31 Swain Road. It seems that Joe is stationed in Germany after being here in the states and then the Philippines; then Taiwan; and Vietnam. He has been in Germany now for a little over a year and expects to be home some time in May of 1968, having completed his fifth year of service. Paul is now in California, but is to go over to Taiwan (Formosa) the first of the year. The Waterhouses are certainly doing their part for this country! Congratulations.

Note please the ad from the Wilmington Youth Hockey group. They are selling DuPont Family-pak tooth brushes, 3 for \$1. This is great and for their fund raising drive.

The Girl Scouts of Troop 389 are back from their hike at Camp Runnels last week Saturday, and they had a great time cooking Doughboys for desert outside. Among the 30 girl scouts were six adults the leader, Eileen Morrisette, her assistants Maureen Hughes and Dot Wiberg and three other adult helpers Mrs Theresa Hanlon, Mrs Lorraine Burt, and Mrs. Audrey Errico. Fun?

There'll be a SKATE SWOP held by the Skating Club at it's building (the Old South School - red) on Chestnut Street from 10 to 12 on Saturday morning. Also, here is your chance, meres and peres to outfit the kids with boots and rubbers. There'll be a 25¢ charge for an even swap for handling, and the other charges will be based on condition of the merchandise. This is great opportunity for those kids with the big feet or the small brothers and sisters to get them selves a good pair of skates! Get that one, folks, between stops at fairs and whists and stuff this weekend.

That Fair at the Methodist Church on Saturday is 'Horn of Plenty Fair' and sponsored by the Woman's Society of Christian Service on Saturday, Nov 18 from 10 to 7 pm with the Roast Beef Supper (\$2) at 6 pm by reservation. Abigail Circle will have Pillow and Food Table; Claudia Circle, Plant and Candy Table; Martha Circle, Hand Craft Table; Esther Circle, Dolls and Grab Bags; Mary Circle, the Roast Beef Supper at 6 p.m. (\$2)

Suggs - Bryn Nuptials

In a candlelight ceremony on October 14, 1967, Dorothy Frances Suggs became the bride of Robert Nels Bryn, at the Wilmington Methodist Church at seven in the evening, with the Reverend Willis Miller officiating.

Dorothy is the daughter of Mr and Mrs Angus Suggs of 402 Shawsheen Avenue and Robert is the son of Mr and Mrs Stanley Bryn of 9 Marie Drive.

For the ceremony, the church was decorated with chrysanthemums and the soloist, Mrs. Barbara Brown rendered 'Lord Bless This Hour', 'The Lord's Prayer' and 'I'll Walk Beside You'.

Attending the Bride were Lorelei Suggs as Maid of Honor, the bride's sister. The bridesmaids were Darlene Bryn, Sister of the groom; Deborah Burns, cousin of the bride Patricia Mills of Wilmington and

Donna Reed of Malden, friends of the bride. The junior bridesmaids were Rebecca Suggs, sister of the bride and the flower girls were Tanya and Trisha Suggs, twin sisters of the bride.

In attendance on the groom was best man, Kenneth Butler. The ushers were Robert Paine, cousin of the bride; Steven Bryn, brother of groom; Thomas Manuel and Albert Mills and Jeff Sheerin, all friends of the groom from Wilmington.

The bride was given away in marriage by her father, Angus W Suggs. Radiant in her mother's wedding gown of satin appliqued with brussels lace, cathedral sleeves and train accented the floor length veil, which was held by a brussels lace crown, the bride carried a cascade of roses and English Ivy.

The bridesmaids were lovely in brandy velvet bodices with champagne brocade skirts. The maid of honor wore gold velvet bodice with gold brocade skirt and the flower girls were beautiful in empire waisted gold gowns trimmed with green velvet.

A reception was held after the ceremony at Maple Meadow Hall which was decorated with bronze and gold mums. The guest book was attended by Miss Sharon Justice of Wilmington.

For her gown, the Bride's mother chose a two piece lime green brocade dress with avacado pillbox hat and shoes. Her corsage were yellow and white roses. The groom's mother chose beige lace over peau de sole with bronze accessories. Her flowers were tallisman roses and bronze mums.

The bride and groom took a wedding trip to Niagara Falls. For her going away costume, the bride wore a powder blue coat and dress ensemble accented with deep purple accessories and a cymbidium orchid.

The bride and groom are now at home in Cherry Point, North Carolina at the Air Base, where the groom is a corporal of the United States Marine Corps.

The bride is a graduate of Wilmington High School and the Shepard - Gill School of Practical Nursing. She will be employed in North Carolina.

The groom was graduated from Wilmington High School and attended the Aeronautical School in Memphis, Tennessee.

DIET WORKSHOP NEWS

Want to get ahead of the holiday feast without gaining weight?

Join the DIET WORKSHOP now!

Get rid of some of that extra weight you now have. This is not a starvation diet. There is plenty to eat. Here is a typical Thanksgiving Day Menu: The Diet Workshop Holiday Dinner: Clear Consomme; Roast Turkey with Stuffing; Mock Sweet Potato; Peas and mushrooms; Cranberry-Orange relish; Salad; Celery; Radishes; Squash or Pumpkin Pie. Our recipes for this dinner will be given at the High School Cafeteria on Thursday, Nov 16, at 7:30 pm.

LWV Prexy

Takes Stand

In reviewing the Warrant for the Special Town Meeting of Nov 20, we find that the League has Stands on about 50% of the Articles.

This is for the items we have chosen to study in the past; obviously they were timely in anticipating situations which the town would be facing. However it has come to our attention that many people in town are not aware of how we reach our Stand. Visions of caucuses in smoke-filled back rooms loom into the minds of many.

We must remember to constantly try to educate others to the fact that a Stand is arrived at as a Result of Unbiased Study! As you know, at our Annual Meeting, we choose those items for study which we feel are of immediate importance, then a resource group is formed which gathers information from every conceivable place, they formulate it into a presentation for the League membership and out of the discussion that follows, a consensus is reached--from this consensus our Stand is derived. Each year after that, at Annual Meeting we vote to continue or drop that stand.

This is what keeps the League program current and relevant. Our stands are far-sighted in design, in that they take an unemotional view of what will be best for the town in the future. They may seem idealistic to some, but without ideals, from where would improvement come?

Two other points are important to circulate: (1) The League does not take a Stand on an Article even if every member of the League feels the same way about it. If we haven't studied it, we have no Stand. (2) As individuals, we have a right to disagree with the League Stand taken on a particular Article. A word of Caution We must make it clear to others if possible, whether or not we are speaking as League members when voicing opinions on Warrant Articles.

A MESSAGE TO THE VOTERS OF WILMINGTON

The Special Town Meeting scheduled for November 20, 1967 should be of great importance to all the taxpayers, and not merely a small percentage of the registered voters, who may be 'For' or 'Against' a particular Article or Articles.

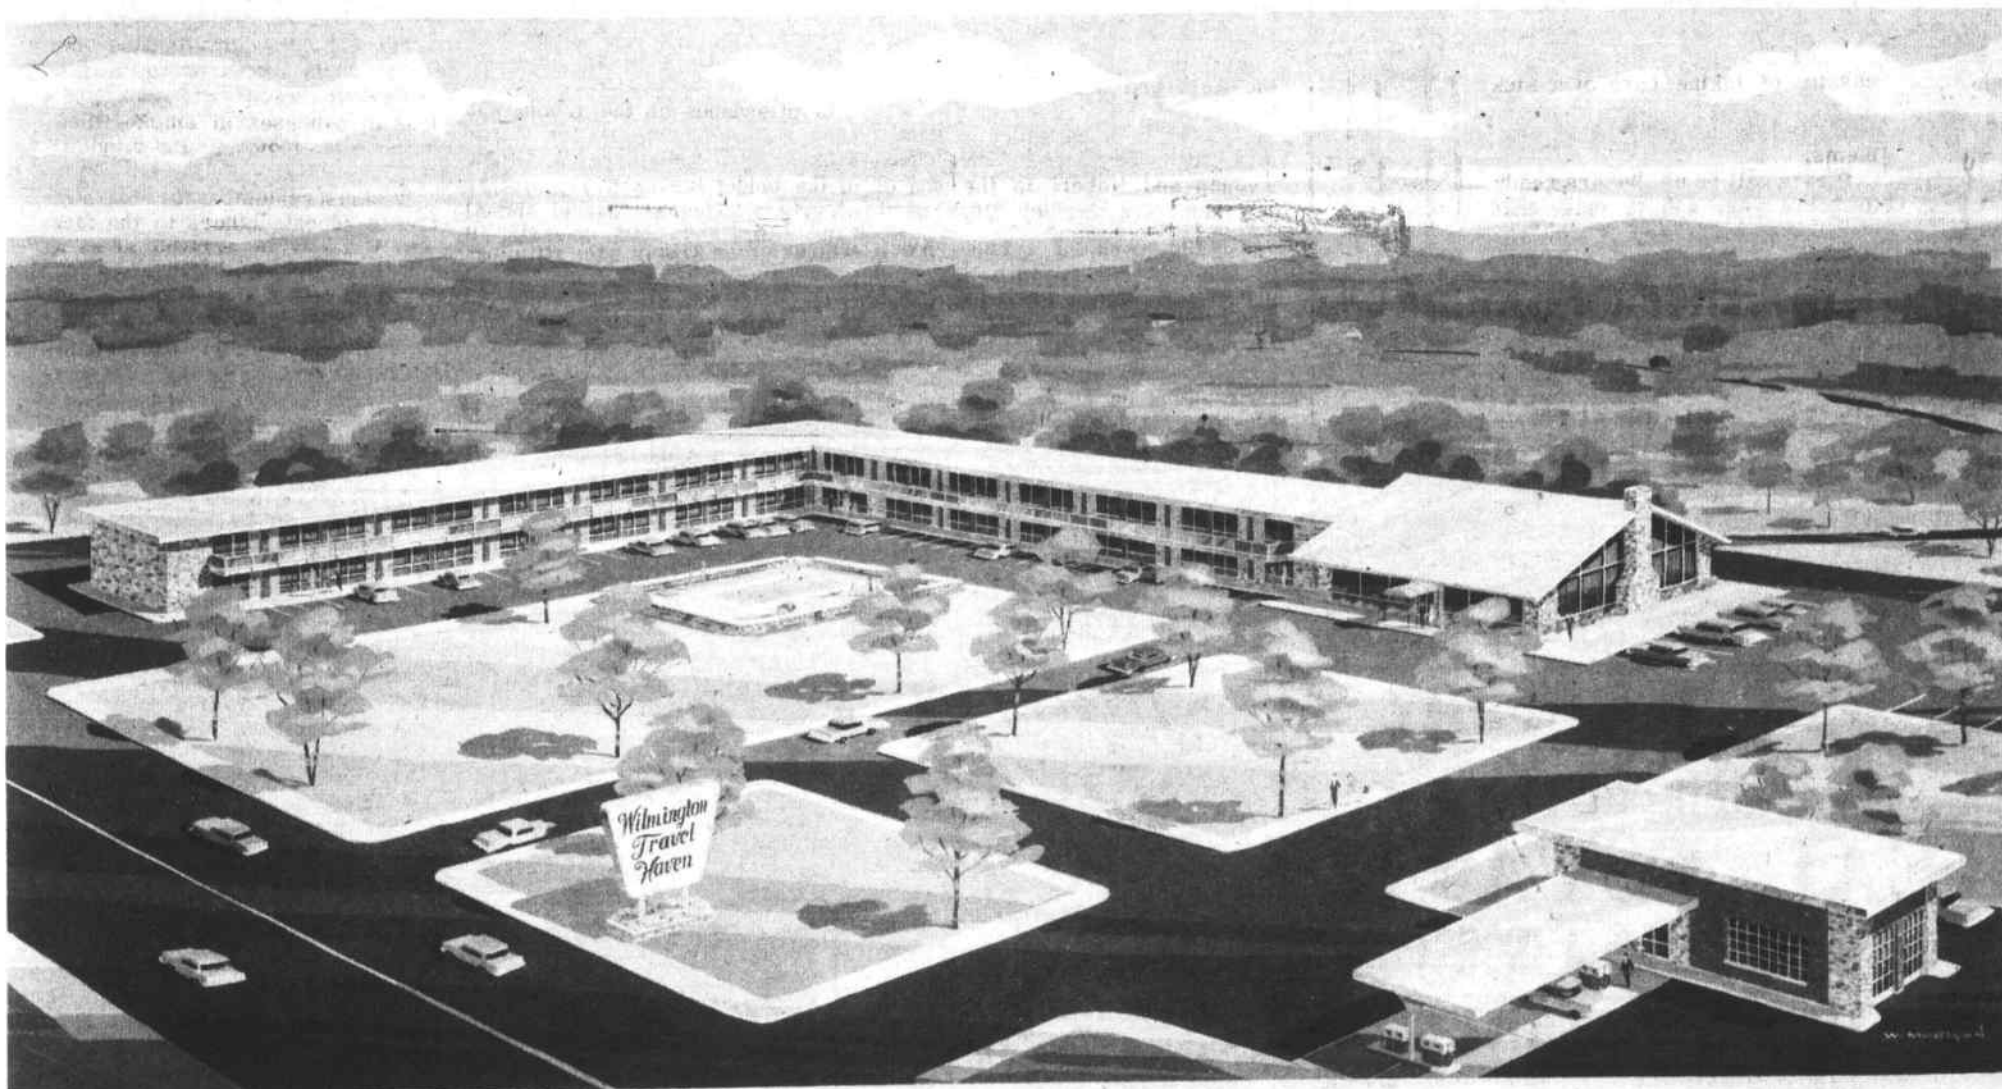

Therefore, we urge all registered voters to consider and recognize their responsibility, whereby a truly representative vote may be achieved which will reflect the will of the people.

WITHIN THE MEANING OF THE WORD 'RESPONSIBILITY' LIES THE UNCONTROVERTED FACT THAT FOR EVERY DOLLAR VOTED, THERE MUST BE PROVIDED A SOURCE FROM WHENCE IT COMES.

THE ARTIST'S CONCEPTION ON THIS PAGE IS OF A

PROPOSED COMPLETED PROJECT, OF A TWO PHASE LAYOUT, AND PERTAINS TO ARTICLES 14 AND 15 OF THE WARRANT FOR THE SPECIAL TOWN MEETING.

PROPOSED IS THE CONSTRUCTION OF A FIRST CLASS MOTEL, AT THE CORNER OF WOBURN AND LOWELL STREETS, ON THE BARROWS PROPERTY.

Concerning these two articles, we feel that the Town has an opportunity to acquire a business enterprise which will not only provide a First Class Quality Motel and Restaurant, with function rooms, but will PROVIDE A TAX PRODUCING PIECE OF PROPERTY IN EXCESS OF ONE HALF MILLION DOLLARS IN VALUE, Plus creating many job employment opportunities for the residents of Wilmington.

VOTE 'YES' ON ARTICLES 14 & 15.

EVERYTHING FOR THE HOME

More Nancy

(From Pg. 6)

per. For Reservations, phone Mrs. Robert Gamlin at 658-3259.

There will also be a Tea Room with Elsa Rivers hostessing. Ernie Ball is in charge of the Cider Keg.

The Decorations are by Ann Jordan and her Committee. The Jr MYF will be selling second hand books, which they would welcome as donations also. There will be on exhibit items from the WSCS Bargain Basement, which Fran Gamlin generously runs in her home on Reading Ave.

Out with you all to see and have fun at the Horn of Plenty!

Imagine the snow storm, on the 15th of November. The Weather Bureau wouldn't even believe it! And just imagine how the mailmen feel, at the same time.

Monday morning, when they reported for work there were 16 piles of 'junk mail' waiting for them to carry, as they make their appointed rounds.

I think somewhere I heard that a mailman isn't supposed to take more than two pieces of third class mail, on any day, as he does his duty for Uncle Sam. At that rate it will take Wilmington's mail carriers eight days just to get rid of Monday's load, and probably there will be a lot more come in, while they are working.

Actually the boys are taking out four different pieces of 'junk mail' each day - but that's a whole four days work, even if nothing more comes in.

The Jaycee-ettes mailed 35 Christmas packages to Wilmington boys on the Town Crier List who are stationed in Viet Nam. They included in the packages hard candy, koolaid, reading material, stationery, toothpaste, dry soup, combs, and other small items as well as baked goods. They wish to thank all of the merchants of Wilmington who were so generous with their donations, helping the cause. (Isn't that just great. Will ask the Jayceettes to let me know which names they used, so if any one else is planning, they won't repeat. The Abigail Circle of the Methodist Church sent some out also, I believe! Will you girls give me a call please and let me know which names you used. At this rate, we may be able to get everybody one!)

A Grateful Heart

... overflows into a spontaneous thanksgiving to God.

Thanksgiving day in Christian Science is an expression of deep gratitude to God for the blessings He is pouring forth to us continuously.

You are very welcome to join in attending this Thanksgiving day service and any of our Sunday and Wednesday services.

FIRST CHURCH
OF CHRIST, SCIENTIST

Corner of
LOWELL and SANBORN STREETS
READING, MASSACHUSETTS

10:30 A.M.

Many many addresses are now coming in and we will fill them in each week, hoping that you can get the cards and packages off on time. We asked for Bill Cawthron address and had a note from his mom. It seems that Bill was home on leave on October 15 for twenty-five days. Whoops--on October 27 he fell on the front stairs at home and chipped his ankle. Consequently, he has been confined to the Chelsea Naval Hospital ever since, so there's no telling where he'll be at Christmas. Hope that it's home!

Think of the holidays and looking at the cold blizzard outside the window on this November 15 makes me want to wish you a 'Merry' Thanksgiving... Anyway, have the best and our hearts are with you fellas in the Service, every one!

St. Dorothy's CCD News

Fr Darcy, the Spiritual Director and the Executive Board and the Teachers of St Dorothy's CCD wish to extend a warm welcome to Mrs Marilyn Chalfour, our new high school principal. Mrs Chalfour resides on Shawsheen Ave. Wilmington and has been a high school teacher of religion at St Dorothy's for three years with full certification. Prior to that, she taught at St Patrick's Church in Stoneham. Marilyn's religious education consists of attending the grammar school of St Patrick's in Stoneham--Girls Catholic High School in Malden, and she is a graduate of Merrimack College in Andover, Mass.

With this background, we feel that she is well qualified to assume the duties and responsibilities of the office of high school principal of CCD St Dorothy's Parish. To help Marilyn's job a little, we must state at this time that she is in need of both men and women for high school teachers and for substitute teachers. Those wishing to volunteer for these openings, may reach Marilyn on Wednesday between 7 and 8 o'clock at the CCD office, located in the basement of St Dorothy's Church, and talk to her in person. The number is 658-9713. You may also contact the CCD Board President, Bob Hildebrand, at 658-4059, and let him know that you are interested in the St Dorothy CCD Program. Don't Hesitate! The need is great! The time is now! You may also leave your name for Fr Darcy at the Rectory.

We also extend a most cordial welcome to Mr and Mrs Richard L'Italien, of 10 Oakland Ave in Tewksbury, as Chairmen of the Parent-Educators of St Dorothy's Parish in Wilmington and S Tewksbury. Joan attended St Joseph's Grammar School in Wakefield for eight years. Her husband attended fourteen years at various parochial schools in Lawrence, in

cluding Central Catholic High School. He also attended Merrimack College in Andover. Mr and Mrs L'Italien are the parents of three children: Mike, Mark, and Pamela. Working a husband and wife team, Joan and Richard are at the Church during the baptism of babies and present each baby with a white baptismal robe as a symbol of purity and a lighted candle with the CHI-RHO symbol of it in red. This is a symbol of Christ--the Light of the World. In addition to the presentation of robe and candle, an explanation of the various steps of the baptism ceremony are described.

If there are any volunteers who wish to participate in the baptism ceremony, or perhaps make some of the robes (all material is furnished free to these people who do the sewing), Joan would be most happy to hear from you. 658-9227. In addition to the Parent-Educator Group, Joan also assists in the Saturday morning CCD religious instruction program by helping Sr Helen Donald with the first communion children. The Parent Educators visit the homes of the new infants within a few weeks of the baptism to visit the parents and share with them ideas on making a more Christian Home. These visitations are continued at three month intervals until the child starts school.

Baptist School for Handicapped Children in Reading

A unique and most beneficial service over the past five years has been the work of the First Baptist Church of Reading, in the form of a nursery class for children, ages 3 to 7, with handicaps. Children having cerebral palsy, brain damage, speech impediments, physical, mental and emotional disturbances and abnormalities are given training by a state certified teacher.

The school is a private school organized by the First Baptist Church of Reading for the specific purpose of training pre-school children for entrance into the public school system, which normally begins at age 7. In the event that there is no class available in the local school system, the Baptist class continues to fulfill this need.

Parents who have a child in this category are encouraged to talk to the minister, the Rev. Jack R. Cavanaugh, about possible assistance and help. Many children have been given a tremendous headstart through this class. This is the one way that the church feels it can extend its Christian concern and love to the communities surrounding it.

Death

**ALICE A DOUCETTE
PASSES AWAY**

Alice A (Boudreau) Doucette, wife of Louis T. Doucette of Phillips Avenue, Wilmington, died at her home suddenly on November 15. Mrs. Doucette was 65 years old at the time of her death. She was born in Yarmouth, Nova Scotia, and has lived in Wakefield, Mass before moving to Wilmington nine years ago.

Besides her husband, Mrs Doucette is survived by seven children: Mrs Dorothy Hillson and Richard Doucette, both of Wilmington. Mrs. Mary Philbrick of Framingham; Mrs. Margaret Delin of Stoneham; Mrs Lillian Burbine of Wakefield; William Doucette of California and James Doucette of Texas. She is also survived by fifteen grandchildren and two great grandchildren.

Funeral Services will be from the W S Cavanaugh & Son Funeral Home at 374 Main Street on Saturday, November 18 at 9:15 a.m. followed by a High Requiem Mass at St Dorothy's Church at ten a.m. Visiting hours will be on Thursday November 16 from 7 to 9; and on Friday November 17 from 2 to 4 and 7 to 9.

Burial will be in the family lot in Wildwood Cemetery.

245-2505

SCHOOL PRICE
From Fr. Page

by 5 1/2 % per year up to the present time, and then by 10% until the time of letting the contract, which he presumed to be in 1969. The increased percentages, he said, was for inflation--"the rate of inflation that we have seen". He ran into objections by Burt and Niles.

DeLamater took \$1,063,044 for the Woburn St School, added 5 1/2% to get \$1,179,000, which would be the cost 'up to now', which cost he figured at \$1,179,000 for 1967. To this he added 10%, \$118,000, and got a figure of \$1,297,000 for 'up to 1968'. To this figure, DeLamater then added \$130,000, and arrived at the theoretical cost of \$1,427,000 for the Woburn St School construction in 1969.

Charles Burt of the Finance Committee protested that DeLamater was compounding his figures, taking percentage on percentage.

DeLamater said that "when you are dealing in a market today where there is an awful lot of work around, you get these figures. If anyone wants work he can get it!"

Michelson added: "The entire bid is projected on the highest--most contractors, to entice the amount of skilled labor as is needed, have to figure these things in this way."

Then he pointed to the cost of the hardware in a building, which he said is normally 1% of the cost. "It has been increased to 5% as of November first."

Speaking of costs, DeLamater said that mechanical engineers won't give figures today, until faced by bids, because "they can be off as much as 50%".

After Burt protested that DeLamater was "compounding the interest", DeLamater started citing construction cost curves, from a McGraw Hill magazine, which he called the "Bible of Construction".

From 1947 to 1964, he said, the curve was at a 5 1/2% rate. Now it is at a 10% rate. It is related to the cost of common labor to steel and lumber, and now, to the cost of skilled trades. This was the way, DeLamater said, that the contractors were estimating their prices.

Selectman Paul Niles protested that DeLamater was confusing two sets of figures, two curves, out of the McGraw Hill publication, one dating back to 1913, and the other dating back to 1927.

Joseph Courtney asked DeLamater if he could give a comparison by area, by activities. "What are we buying?"

DeLamater: "An excellent idea but it would take a long time to work it out."

It was at this time that Michel son gave his comparative prices on Party Walls (4" concrete blocks) and the proposed Folding Partition Walls.

State Requirements

The discussion turned to the requirements of the State. It started with Chairman Callan saying that the two proposed kindergarten rooms would be conforming to the new state requirements, with their own outdoor access, and with toilet facilities already in for the children, but capped off, until the rooms were to be used as kindergartens. There would also be, he said, a Teacher's Lunchroom, a Teachers' workroom, and a Teachers' Lounge, and he added that the last item was also in the Woburn St School. The Cafetorium is larger--it follows state requirements Callan said, and then added that Mr Guarino has a letter approving the plan.

Niles: "From the School Building Assistance Bureau?"

Shea: No. From Domas (in charge of the Bureau)

Continuing, Shea told his audience, speaking of the extra teachers' facilities: Last time I appeared before SBAB, for the 15 room Woburn St School, I was told: "Harold--we'll let it go this time--but this is the last time!"

Dick Barry of the Finance Committee brought up the subject of a toilet, to be installed for the Librarian of the school.

Guarino: The State Board demands it.

Shea: The SBAB makes it a requirement.

The State Board of Education became a subject of comment. Shea told the audience that there were new powers for that board, and that "They'd hold a town up, or you don't get the money (re-

imbursement, Ed). He continued "Provide these things or you don't get any more state aid."

Third Floor

Rod Laughton of the Finance Committee asked if the PBC had considered a third floor for the building, pointing out that there could be economies. He was answered by Lionel Baldwin of the PBC in an almost impassioned speech:

"I'd like it too, if the town can save money. Everything is going up. They just bid on the Medford High School--\$21 millions--Wal tham is spending \$8 millions. If you sit back you get behind the Eight Ball."

"This school--there are no chops or jigs in the wall, it's almost all straight construction and that's the way I like to see it. I can't bid on it, because I am in the committee, but that's the kind of building I like to bid on."

"When you can get a building for under \$25 a foot don't complain--If you get a good sound building! This is a simplified building, nothing fancy."

"We have a job to do--we know we are short of help--that puts it into a high price."

"That Milk Street Construction Company, on the Woburn Street School (currently constructing an addition to the school, Ed) that was a real good bid. If I can save this town some money, I'm all for it."

Guarino pointed out that the right wing of the proposed school has three stories planned for a part of it. The left wing, which is built on a slab, did not. "I don't like to sprawl all over the

property."

The gymnasium, he said, would be at the end of the right wing (facing Shawsheen Ave) and in back would be the athletic field, with two softball diamonds, tennis courts, parking, etc. This he said, was in the plans, but not to be a part of the construction contract.

"In reality I have not changed at all, in the specs for the West Intermediate School, the Woburn Street School, and this."

"If I get these plans out in March, I will try to get a contract for less than \$1,600,000."

Sidewalks

Callan brought up that the PBC had received a letter, he believed from the Selectmen, asking about sidewalks adjacent to Shawsheen and Hopkins Street. DeLamater said that a concrete sidewalk with the proper base would cost 75¢ a square foot. With blacktop instead it would be \$1.50 a square yard, compared to \$7 a square yd for concrete.

Phasing Out

Bafry asked Al Lanni, Chairman of the School Committee how many rooms, in old schools, would the School Committee be 'phasing out' because of the new construction of the Shawsheen Ave School.

Lanni told him that, for each new school being built, one old school was being phased out--one four room school.

Barry noted that there appears to be a declining birth rate 'very recently'. This brought the only hilarious moment of the evening,

LEADING THE BAND: Drum Majorettes of Wilmington High School, taking part in the Veteran's Day Parade last Saturday.

Wildcats Stay On Top

A good home crowd saw Wilmington High come from behind to beat a stubborn Billerica team 15-8 Saturday at the High School field.

Penalties, interceptions and fumbles marred an otherwise solid offensive performance by the Wildcats, as Bill Walls hit for 11 or 20 passes for 175 yards; Jim Brewster caught 3 for 125 yards; Hank Devlin gained 50 yards on 12 rushes, and George Phillips had 44 in seven carries.

The first time they had their hands on the pigskin, the Wildcat drive started in reverse with an illegal procedure penalty, a call which plagued the locals all afternoon.

From that point, their own six, the Cats moved quickly to the 40. But this assault was halted when linebacker Jim Jenkins outfought a Billy Walls target for an interception at midfield.

A few plays later a Roach punt was killed at the home team's 1. On third and four, Walls was trapped in the end zone for a safety in a carbon copy of last week's first score.

Billerica tallied later on in the second quarter when quarterback Bob Glaser hooked up with his fine end Billy Sullivan for an 81 yard touchdown play. Jim Brewster fell on a bad snap on the ex-

tra point attempt and the score stood at 8-0.

Wilmington waited until the last minute of the half to knot the score. Following a Roach punt, which was allowed to roll dead, as were all punts of the day to WHS, Bill Walls dropped back and faked to Mike Esposito, who had drawn the

defense over the middle, and then lofted one to the cleared zone down the right sideline. End Jim Brewster took it in over the shoulder and outran the safety for a 59 yard touchdown.

BREWSTER HEADS FOR A TD

After receiving a pass from Walls. The 59 yard pass run was Wilmington's first touchdown.

Walls fired to O'Connell for the extra points and Dan made one of his patented diving stabs into the end zone.

O'CONNELL FLIES THROUGH THE AIR: To receive a pass that gave extra points, after the first touchdown.

The half ended with the score tied 8-8, as did the third quarter, thanks to a couple of drive killing interceptions by Sullivan.

The winning marker came at the end of a time-consuming, penalty-retarded thirteen play drive. The key play was a 45 yard Walls to Brewster pass which took the ball to the Indians 15. On 3rd and 9, Walls came through with a tenyard pitch to 'Hands' O'Connell at the four. Devlin plowed into the middle for 2 and then Walls sneaked in for the winner with 1:18 remaining in the game. Esposito kicked the extra.

O'Connell, quite fittingly, picked off a desperation Glaser bomb a few plays later and Bill Walls ran out the clock for a 15-8 win.

WALLS DOES IT: A sneak play by Quarterback Walls put the ball across the line for Wilmington's second touchdown.

HOURS: 6 AM-10 PM Daily
8 AM-9 PM Sundays

Have you who have been attending the High School football games noticed that very few teams in the Merrimack Valley Conference have much of an offense?

Wilmington's extry-strong defense is mainly responsible for its opponents low point totals, but the story is the same throughout the league: Good field - no hit.

Mike Esposito, Danny O'Connell and Bill Walls rank 2, 3, and 4 in league scoring.

Don't forget the Boosters' smoker Friday night.

The Thanksgiving victory dance will have background music provided in the Guy Lombardo style by the 'Warlocks.'

What are the odds Sonny Liston's first fight under new one-eyed Jewish manager Sammy Davis Jr. (not Moishe Dayan) will be against that Cohen fella who treated Smy-my's bosom goomba Frankie so harshly. If the Big Bear should take that one, then May Britt Davis will line up Ingmar Johansen for a home and away series to be fought at opposite ends of an S.R.O. Woburn YMCA.

Mark Jepson combined with Paul Ritchie on a 60 yard pass-run play for the Pop Warner Chargers first score, and then scampered for the winning touchdown in the last minute of play, as Wilmington topped a stubborn Winchester team 12-6.

The Chargers finished in second place on a tremendous team effort all season long.

Larry Siegfried shoots too much to be a playmaker and scores too little to be a shooter. John Havlicek is spending too much time on the bench. He should be starting in Siggy's place.

The Boston Patriots are threatening to move out of Boston. As one who has won the contest to name the team; been a stockholder; been a member of the 1776 Club; and been among the most loyal of fans, I love having a pro football team to watch and root for in Boston. However, the Patriots have never in their eight years been a good team. When they have won it's been on luck and spirit. The personnel is generally inferior. The coaching unimaginative. The scouting and player procurement program is disgustingly bush. So, please, do us a king size favor, Billy Sullivan, and pack up your footballs in your old kit bag and move!

The WHS Jayvee gridders doubled Billerica 28 - 14 Monday closing the season with a 7 - 1 record. Again Dick Gillis led the way with 2 touchdowns running behind Bob Stewart and Paul Morris.

Dick Farley and Ray Norton of BU and Greg Landry of U. Mass look like the areas top prospects. Pint-sized UNH kick returner, Billy Estey also rates a look.

When new coach Harry Cunningham sends his Chargers into ac-

tion against the Broncos in the December 6 opener of the Town League their major problem of last year should be non-existent. Last season, the team badly lacked depth. This year the roster boasts 13 men including serviceman, Bob McNabb. High scoring Billy Ritchie and the loop's top defensive star Ron Wybert head a list of returnees, others being Ritchie Page, Bruce Arnold and Don Marshall. Rebounding help comes from Jeff Sheerin and Len Bryant, acquired from the Bullets. Scoring power has been added in rookies Len Gustus, Bob Flores, Bob Cassello, and Mike Cairra.

Hope the Bosox don't fade as quickly as those GO RED SOX bumper stickers. Wilmington Ford's hockey team rebounded with a 5-0 win last week after dropping their first three encounters. How can the Bruins lose to expansion entries and still expect to make the playoffs. Those Black hawks aren't going to stay down much longer. Wilmington's Bantam hockey team remained undefeated with a 12-0 trouncing of Tewksbury in Shawsheen League action. Jim Irwin pumped in 5 goals and Peter Tighe 3 to lead the route. The NY Knicks have the best personnel in the NBA. Watch out, Celtics, they will be even stronger when Bill Bradley joins them in January.

Mike Fay Can Sit Up

Michael Fay, 80 year old retired town employee, in the St. Johns Hospital in Lowell, sat up for a brief period in a wheel chair yesterday.

Both legs are in casts, and he has a possible fractured skull, according to hospital authorities. He is under 'intensive care'.

Fay, who suffers from a 'wry' neck, and has to face always to the left, was struck, on Church Street, Friday, while going from his Atlantic Avenue home to Wilmington Square, a trip he makes several times a day.

The operator of the car was Mrs Miriam Colucci, of Canal Street, an acquaintance of Fay for many years. Some reports state that Fay walked into the Colucci car.

Friday - 7:30 pm, Diaconate Meeting.

By Louie

Plastic surgery is one of the world's oldest medical arts.

The restoration of fractured noses was described by ancient Egyptian apayri 5000 years ago. And the repair of amputated noses is recorded in early Sanskrit literature of 600 B.C.

Lopping off noses and ears was a common ancient punishment and the surgeon's job was to repair the damage.

Until a few years ago, plastic surgery was often a gamble.

But today, it is simple, speedy, and relatively painless. It can't work miracles but it can give a man or a woman a chance.

Today, plastic surgery is no longer considered just a matter of vanity. Many attitudes have changed considerably.

We at Silver Lake Pharmacy are well stocked to supply you with all of your medical needs. Tel 658-4617
Open every day 9 - 10.

THIS WEEK'S HELPFUL HINT: Vaseline is easy to remove with carbon tetrachloride. After sponging, wipe area dry with a clean cloth.

TOWN MEETING
From Page 2

The FinCom turned down Article 5 because it did not have enough information as to costs, and it said an outside appraiser should be called in to estimate the value of the land.

Article 6 is submitted by the Town Counsel, and asks for a tighter control on 'junk' cars. The FinCom recommends approval, as it does on Article 7. This article is almost mundane, that is if Welfare Costs don't cause hackles to rise on the back of your neck. It seeks the transfer of monies for welfare costs, particularly Medicaid.

Article 8 is approval, in effect, of the proposals for the Shawsheen Valley Technical - Vocational School. Wilmington is to share the costs with Billerica, Bedford, Burlington and Tewksbury, and its share of the bond costs will be 17.2%, for 1968. The FinCom recommends approval.

Article 10 asks that the town be able to accept Storm Drain Easements, for the construction of storm drains (to get rid of excess water caused by heavy rains, etc). The Town Manager is behind this, and the FinCom has recommended approval.

Article 11 asks that the town rezone land on both sides of Route 62 in North Wilmington, where it meets Interstate Route 93. It is now zoned for 10,000 square foot lots and the Planning Board wants it zoned for 22,500 square foot lots, the so-called Residential A.

This is an area where a sub-division was stopped by the construction of Route 93, and not started again. The owner, Earl Hamilton of Church Street, is willing to accept the rezoning of the land that is north of Rte 62, but says to rezone the land south of Rte 62 would cause him to be penalized, because he could not get the larger lots in the land remaining.

Article 12 is another Planning Board article. That board seeks to rezone the land west of Nichols Street into 22,500 square foot lots. It is now 10,000 foot lots. Only a couple of houses are affected. The FinCom has recommended approval of both 11 and 12.

Article 13 is the Dog Leash Law, approved in some communities, and perhaps certain to produce a lively discussion on the floor of the Town Meeting. The FinCom has recommended approval of a revised version of the proposal.

Article 14 and 15 have to do with a proposed Motel on Lowell Street, near Uncle Avco and kitty-corner across from Lucci's. The FinCom has recommended that the voters follow the Planning Boards actions, and that board has approved by a three to one vote.

Article 16 may well be a 'lost' article, even before it is on the floor. It might be quite the opposite, because of the reactions of voters to rising taxes. Some of the neighbors have been vociferous in opposition, and such actions always attracts friends. The FinCom has disapproved, as has the Planning Board, but the FinCom is going to have another look on Saturday.

Article 17 is the proposal of the publisher of this paper to purchase an unused portion of the Town Parking Lot, behind the old North Wilmington railroad depot. The proposed price is \$1800, which is the value the Principal Assessor has placed on the land. The FinCom recommends approval, providing the sum is not less than \$1800.

LAND COURT

(Seal) Case No. 53094 Misc. In Equity

To REID H. THURBER, III, and PHYLLIS SAVARESE THURBER, of Wilmington, Middlesex County; ROBERT P. STEVENS, of Winchester, Middlesex County, and all of said Commonwealth; and to all persons entitled to the benefit of the Soldiers' and Sailors' Civil Relief Act of 1940 as amended;

FIRST FEDERAL SAVINGS AND LOAN ASSOCIATION OF BOSTON, Boston, Suffolk County, and said Commonwealth, claiming to be the holder of a mortgage covering real property in Wilmington, 60 Taplan Avenue, given by Reid H. Thurber, III and Phyllis Savarese Thurber to the plaintiff, dated September 23, 1964, recorded with Middlesex North Deeds, Book 1666, Page 137, has filed with said court a bill in equity for authority to foreclose said mortgage in the manner following: by entry and possession and exercise of power of sale.

If you are entitled to the benefits of the Soldiers' and Sailors' Civil Relief Act of 1940 as amended and you object to such foreclosure you or your attorney should file a written appearance and answer in said court at Boston on or before the eighteenth day of December 1967, or you may be forever barred from claiming that such foreclosure is invalid under said act.

Witness, ELWOOD H. HETRICK, Esquire, Judge of said Court this ninth day of November 1967.

SUZANNE COY ENGAGED
Mr. and Mrs. Richard P Coy of 2 Baland Road announce the engagement of their daughter, Suzanne to Mr Dennis DeMaggio, son of Mr and Mrs Joseph DeMaggio of 2 Glendale Circle.

Miss Coy graduated from Wilmington High School in 1967 and is presently employed by Sylvan Electric. Mr DeMaggio graduated from Wilmington High School in 1965 and is now employed with the First National Stores.

An August wedding is planned.

SCHOOL PRICE
From Page 11.

when somehow the word 'pill' was brought into the conversation--not by Barry.

Lanni, who is with the state Department of Education, said that there appears to be a decline, but more people are now coming of marriageable age. 'We still have three schools to phase out.'

Shea: The number of pupils in classrooms are now 30 to one teachers. Eventually they will be 25 to one teacher.

Lanni: This year we have some classrooms with a 35 to 1 ratio. That's not a healthy situation. The State is eventually going to make a mandatory student-teacher ratio. There was an exchange (before reported) on the SBAB standards, by Courtney and Michelson.

DeLamater: We have all been witnessing a case of Build-In Obsolescence, right here in this area--and that is Route 128. They had to start rebuilding it, right after it was constructed. Here you have a school (Shawsheen Ave School) with no Planned Obsolescence in it--it will still be in use forty or fifty years from now! Teachers Rooms? In New York State they were forced to do it. Here you have it already!

Twelve Rooms?

Niles asked if the School Department had considered any alternatives to the building being planned.

He pointed out that the proposal was for one school, with 28 classrooms.

Lanni: You mean 12 room schools?

Niles: I didn't say that--10 rooms--18 rooms.

Shea: We have now approximately 300 youngsters who are out of district, and require bussing--primarily in West Wilmington. That's why we are building here. In long range plans, we will go out once more, and nail down a site on Chestnut Street.

Lanni: In paying for bussing, you pay the first \$5 per child, and the state pays the rest.

Shea: You have to face that the state has new requirements--in any school over 300 children you have to have additional facilities--library and so forth.

And that was the end of the discussion.
